## About the Foundation for Polish Science

- Non-governmental, non-political, non-profit institution supporting science established in 1991;
- The major off-budget funding source in Poland (private endowment and EU funds; year budget: 50 mln EURO);
- Supporting: excellence in science, innovative research projects that demonstrate commercial potential and creation of spin-off companies, HR Excellence in Research, peer-review based approach in research assessment.

**Foundation for  
Polish Science**

- **FNP welcomes initiatives toward OPEN SCIENCE and acknowledges its relevance in the acquisition and dissemination of knowledge;**
- **Covid-19 pandemic taught us all the importance of sharing publicly funded data for the benefit of society – science is a common good;**
- **Our internal analysis on the challenges and opportunities associated with the transition to OPEN SCIENCE is underway.**

Polish Science**

A vertical line on the left side of the slide, composed of five blue circles connected by a thin blue line. The circles are of varying sizes, with the top one being the largest and the bottom one being the smallest.

**FNP is among signatories of the San Francisco Declaration on Research Assessment (DORA)**

**FNP promotes sharing and reuse of data and publications**

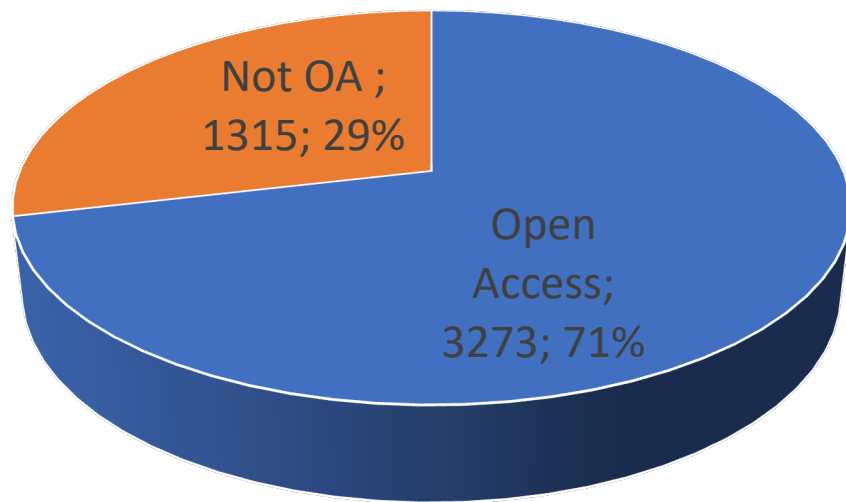

**FNP is a member of several organizations working towards OS**

**FNP supports its' laureates in the application of best practices in data management**

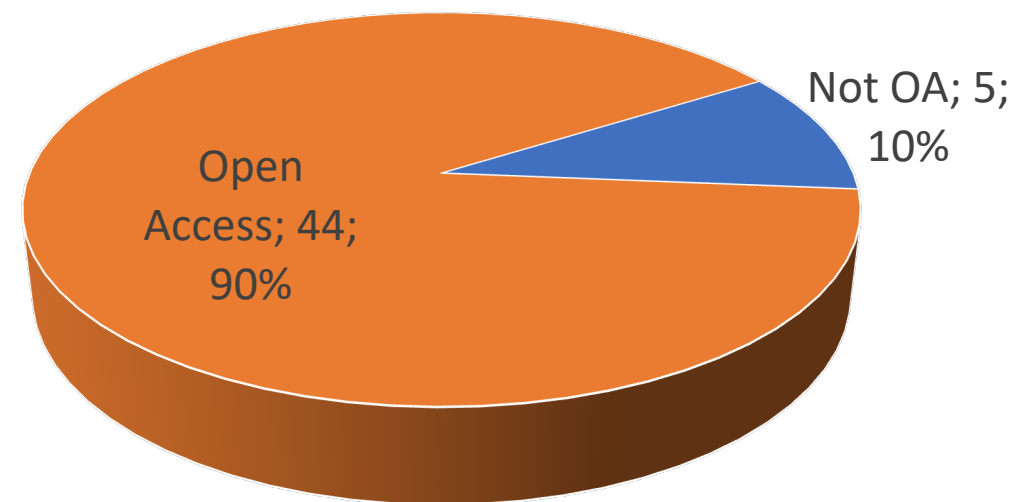

**The cost of Open Access publications can be covered from the indirect costs in FNP's projects**

## The share of OA publications in publications resulting from FNP's projects

Publications resulting from the FNP projects in 2018-2022 (WoS)

"Highly cited"\* WoS publications resulting from FNP projects in 2018-2022.

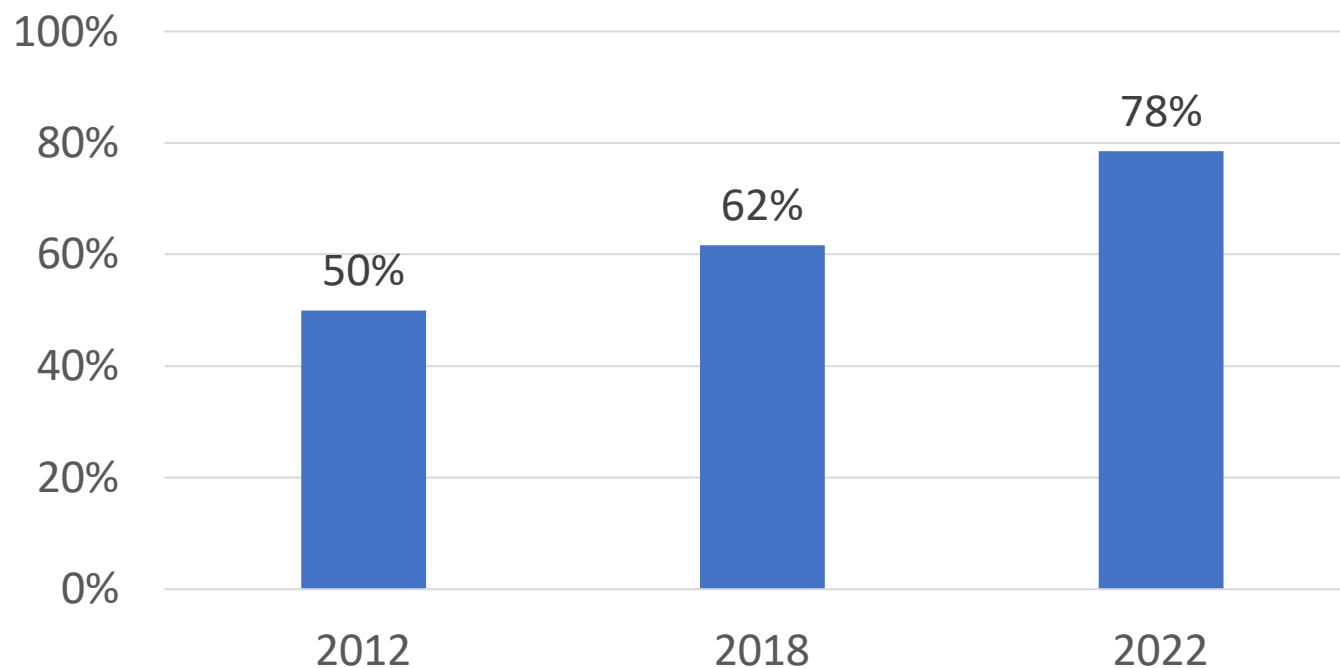

\*papers that rank in the top 1% by citations for field and year in the Web of Science

Polish Science**

**Foundation for  
Polish Science**

**Activities to be  
taken**

**Data Management  
Plans  
(already required)**

**Preparing  
recommendations for  
our laureates on the  
transition towards  
OPEN SCIENCE**

**Development of a  
comprehensive OA/OS  
strategy**

**Need for an  
extensive training**

**Individual  
actions should  
be encouraged**
